EDUCATION

University of New Haven

B.S. in Computer Science

West Haven, Connecticut

May 2026

- o GPA: 3.67/4.00, Dean's List

SKILLS

Programming: Python, Java, C, C++, C#, SQL, Bash, TypeScript, JavaScript

Security Tools: Metasploit, Nmap, Wireshark, Burp Suite, VMware, Cisco Packet Tracer

Frameworks & Standards: NIST Cybersecurity Framework, MITRE ATT&CK, NIST SP 800-53, GRC, SOC, CVSS

Tools & Practices: Linux, Git/GitHub, Docker, AWS, Postman, Agile/Scrum, Incident Response, Threat Modeling, Risk Assessment, Vulnerability Scanning

EXPERIENCE

Cybersecurity & IT Risk Intern

Southington, Connecticut

Webster Bank

May 2025 – Aug 2025

- Managed and reviewed evidence for **15+ security issues**, ensuring **100% milestone completion** and maintaining audit readiness.
- Conducted **2+ 3rd-party Information Security Risk Assessments** and peer reviews, improving vendor security compliance scores.
- Created **5+ process-specific training documents** and contributed to cybersecurity awareness initiatives, reducing onboarding time and increasing employee engagement with security best practices.

Research Assistant - Next-Gen Autonomous Vehicle Security

West Haven, Connecticut

University of New Haven

Nov 2024 – May 2025

- Simulated cybersecurity threats including sensor spoofing, data corruption, and network interception to evaluate system resilience and safety
- Designed the foundation for reinforcement learning integration and documented security considerations for safer AI-enabled autonomous system design.

Information Security Officer Intern

Remote, Connecticut

IQ4

Jun 2024 – Aug 2024

- Analyzed real-world cybersecurity challenges with expertise in **GRC, SOC**, and the **NIST Cybersecurity Framework five pillars: Identify, Protect, Detect, Respond, and Recover**.
- Conducted **threat modeling and incident response simulations**, formulating countermeasures that reduced theoretical breach impact by **30%** in case study scenarios.
- Produced **detailed security reports and executive summaries**, strengthening organizational awareness and reinforcing adherence to cybersecurity best practices.

PROJECTS

Ethical Hacking Penetration Test

West Haven, Connecticut

Comprehensive Penetration Testing & Vulnerability Exploitation Lab

Apr 2025 – May 2025

- Exploited **9+ CVEs** (including **CVE-2017-0143, CVE-2019-0708, CVE-2016-5195**) across 3 custom VMs (**Ubuntu, Debian, Windows**), achieving remote code execution and privilege escalation to root/SYSTEM.
- Performed reconnaissance with **Nmap** and **Wireshark**, identifying **10+ exposed services/ports**, which enabled successful exploitation using **Metasploit Framework, Python PoCs**, and kernel exploits compiled with **gcc**.
- Documented findings in a **35+ page report** aligned to **MITRE ATT&CK** and **NIST SP 800-53**, with executive summaries and **8+ remediation strategies**.

CERTIFICATIONS

Lean Six Sigma Yellow Belt Certificate, Cybersecurity Excellence Certificate: The Threat Within and NIST Framework

ACTIVITIES AND LEADERSHIP

Computer Programming Club (President), Upsilon Pi Epsilon President, Quinnipiac University NorthEast Annual Cybersecurity Summit (Student Ambassador), Wesleyan University Hackathon (Front End Lead)
